

FOR IMMEDIATE RELEASE

TRUAUDIO Introduces New In-Ceiling LCR, REVOLVE

SALT LAKE CITY, UTAH – March 25th, 2004 – TRUAUDIO introduced today an innovative solution for in-ceiling home theater, **REVOLVE**. Using an all-new design and the latest technology, combined with ease of installation and cosmetics once in the ceiling, **REVOLVE** is an evolutionary solution for in-ceiling home theater applications.

TruAudio's **REVOLVE** is designed to perform as the front left, center, or right. The **REVOLVE** speaker is intended to be rotated to point toward the listener. Its midrange and tweeter rest on a rotating, proprietary bridge to give you even more control over the direction of the sound. Its technology represents a good year's worth of research and development to design an in-ceiling LCR configured on the same plane whose sonic images fire directly toward the Audience. The **REVOLVE** also fits in between the joists in the ceiling for easy installation. Because of **REVOLVE**'s forward thinking design, you will accomplish a great home theater solution without using any wall space.

TruAudio's **REVOLVE** is built to deliver the exceptional sound quality expected in home theater. The lower end frequencies are reproduced using an aluminum cone woofer mounted on a 15 degree angle to better project the bass and fill the room. The midrange is reproduced using carbon fiber with its high end coming from a titanium tweeter. Extra strength baffle, level controls, dog ear mounting and micromesh aluminum grills are just a few more of the features offered. As with most of our products, TruAudio has put a lifetime warranty on **REVOLVE**.

ABOUT TRUAUDIO

TRU believes in architectural speaker innovation, TruAudio designs and manufactures a full line of premium-quality custom audio products. Our engineers go to great lengths to make sure our in-wall, in-ceiling and outdoor loudspeakers blend into any background, yet deliver unforgettable performances. We sell our audio products only through a limited number of Certified TruAudio Dealers across the country. Each dealer meets our high standards for premiere customer service and flawless installation. TruAudio absolutely backs up every set of TruAudio speakers with a Lifetime Warranty.
